

# FIELD TRIPS

Audubon

Grange Insurance  
Audubon Center

## School and Community Field Trip Experiences!

The Grange Insurance Audubon Center offers four different field trip themes to choose from. All field trip experiences include hands-on activities designed to deepen the learning experience. Activities vary depending on the age-group of attendees.

### Length and Pricing

- 1.5 hours for groups preschool-1st grade. \$100 for 16 children and 2 adults. Additional \$5 per person up to 30 attendees.
- 2 hours for groups 2nd grade and up. \$200 for 24 children and 2 adults. Additional \$8 per person up to 40 attendees.
- A deposit of half the total amount is needed to secure booking. Refundable if cancelled within 2-week notice. Credit cards or checks accepted.

### All About Birds

- Learn all about birds and their adaptations
- Handle real bird nests, feathers, and skulls
- Go on a guided interpretive hike throughout the Important Bird Area surrounding our center
- Observe birds in wetland, river, forest, and prairie habitats
- Learn how to use apps on your phone to identify birds by sound
- Build a bird feeder using recycled materials

### Urban Ecology

- Explore the unique challenges and opportunities presented to both people and animals in the urban environment
- Uncover the history behind our center and the Scioto-Audubon Metro Park on the Whittier Peninsula
- Discover ways to help wildlife in the urban landscape through the Native Plants Backyard Challenge and Lights Out Columbus
- Make an anti-collision bird window decal to bring home

## More experiences to choose from!

### Ecosystem Explorers

- Embark on an adventure throughout the centers wetland, river, forest, and prairie ecosystems
- What animals live here? Follow clues and go on an investigation to find out!
- Learn about the importance of balance within an ecosystem
- Test water health by collecting water samples and looking at them under a microscope

### Changes in Nature

- Discover the ever-changing nature of the environment
- Experience the butterfly life-cycle up close at our caterpillar house (season permitting)
- Learn about the different types of natural and human-caused changes that ecosystems can undergo
- Outdoor scavenger hunt to find native and non-native species
- Become a land steward by removing invasive species
- Participants will walk away with the knowledge that they can be a powerful force of change within their own environment
